## Deer Creek MS 7th Grade Percussion Supplies

Each year, as we progress through more advanced music and instruments, students will need to expand their collection of sticks and other percussion accessories. This year, there are a few new items that you will need for 7th grade percussion class. Several of these items listed below are things that you already have from beginning band last year and do not need to be purchased again if in good condition. Please do not substitute other brands/models as they might not be suitable for our instruments. Be sure to label all supplies with your name/initials. Let Ms. McKinney know if you have any questions!
